Tools & Platforms	Docker · Git · GitHub · WordPress · cPanel · Windows Server · Looker Studio · Google Sheets · Postman · Figma
Currently learning	Golang

WORK EXPERIENCE

WebMaster ST. Herb Cosmetics International Co., Ltd.	Apr 2025 – Present 1 yr 5 mo
--	---------------------------------

Redesigned and rebuilt both company websites (stherb.com and emperorherb.com) with fully custom WordPress themes written from scratch, alongside stability and security maintenance, traffic tracking, SEO, the backup process and server coordination. Also building HerbCore CRM in-house – PHP 8.2 and PostgreSQL on Docker – consolidating orders from multiple WooCommerce shops into one packing queue with DHL Express API shipping.

- Full redesign of stherb.com – D2C skincare store, English/Chinese, entirely custom theme
- Full redesign of emperorherb.com – botanical extracts for export markets, a separate custom theme from stherb.com
- Server maintenance and coordination
- HerbCore CRM – multi-shop order consolidation (37 screens · 35 controllers · 13 API groups · 57 migrations · 4 scheduled jobs), in development, roughly 70% complete

PHP 8.2 · PostgreSQL · Docker · WooCommerce REST API · DHL Express API · Cron · WordPress · SEO · Server

Programmer Cloudmate Co., Ltd.	Jan 2024 – Nov 2024 11 mo
--	------------------------------

Delivered 6 internal systems in 11 months: tour booking and management, disbursement and advance payment, supply procurement, SAP data integration, and bank-standard file encryption transferred over sFTP.

- Tour booking and management system
- Supply planning and procurement system
- Banking data encryption and sFTP transfer
- Advance and disbursement payment system
- SAP data connection and file management
- Automated bank file transfer

PHP · AJAX · PostgreSQL · Python · SAP · sFTP · Windows Server
